

It was certainly a good messenger who brought the news to your house that Ayer's Sarsaparilla makes the blood "rich and red." This means so much to those who are thin, pale, feeble, weak, and nervous. After Ayer's Sarsaparilla has cured you, carry the glad message to a friend or neighbor.

Perhaps you suffer from the effects of a warm climate. Prolonged warm weather seriously impairs the strength of many people. The digestion is slow, and the liver becomes sluggish. Impurities in the blood accumulate and cause that feeling of downheartedness and depression.

AYER'S Sarsaparilla

is of the greatest use in such cases. Its purifying, strengthening, and up-building properties will be of inestimable value to you.

As now made, Ayer's Sarsaparilla contains no alcohol.

There are many imitation Sarsaparillas.

Be sure you get "AYER'S."

POPE BIDS CARDINAL GIBBONS FAREWELL.

ROME, Aug. 14.—Cardinal Gibbons had his farewell audience with the pope today in the latter's private library. The cardinal thanked his pontiff for having granted him all that he asked for, from the propaganda and from the Vatican, and the pope replied

that where the interest of the church in America was concerned nothing ever would be denied. In conclusion the pope expressed the hope that he would see Cardinal Gibbons soon again. The pope again expressed his satisfaction with the progress of the Catholic church in America. He praised the way in which the gospel is preached there and said he was preparing a

ED. MCCORRISTON IS COMMITTED

BOUND IN \$500 TO KAUAI GRAND JURY FOR EMBEZZLEMENT OF \$200.

LIHUE, August 2.—The preliminary hearing of Ed McCorrison on the charge of having embezzled \$200 from the Makee Sugar Co. in June this year took place last Monday before Judge C. S. Dole.

The prosecution's first witness was J. W. Neal, the cashier of the corporation, whose main testimony was a demonstration of how the pay rolls of the plantation were kept and paid. He testified that as a rule the pay rolls proper were made out by another employee, Manuel Correa. In the month in question he had done this and after having made the extensions had turned the book over to McCorrison who had then figured out how much coin of each denomination was needed to pay off the men.

A change in the system of segregating the laborers on the pay roll had facilitated checking and it was discovered that the footing of four pages in the month of June were found to be raised fifty dollars each. Neal identified the changed figures as being in the handwriting of McCorrison, while the rest of the figures were written by Correa. A comparison with the pay day cash, kept by McCorrison, showed that the falsified amounts corresponded with the amounts put down in his book as needed for the payment of laborers.

J. D. White, representing the defendant, did very little cross examining, only bringing out the point that the charge against McCorrison rested on the fact that Neal recognized the altered figures as having been done by the hand of the defendant. No further witnesses were put on the stand as the Judge found that there was evidence sufficient for him to commit the defendant to the next term of Circuit Court, in the meantime holding him under a bond of \$500.

KOREANS MAKE WAR ON KAUAI

SURPRISE A JAPANESE CAMP AND ARE ROUNDED UP BY THE POLICE.

LIHUE, Aug. 22.—Nineteen Koreans in jail is the result of a celebration of the birthday of the Hermit king at Pukaki last Thursday night.

It seems that the much abused king emperor or potentate of Korea has a birthday and that it is the habit of his loyal subjects annually to celebrate the occasion by annihilating the visible liquor supply. They did the same this year at least up at Pukaki. Sandpaper and dago red were demolished to such a degree that the destroyers lost control of their fighting mood.

Unluckily someone started the subject of Japanese oppression in Korea and heated speeches followed. At last a Korean, Camille Desmoulin, pointed the road to revenge and freedom, and before one could say Jack Robinson his audience swarmed down to the nearest Japanese camp. And then things began to happen. Everything that came in the way of the infuriated Koreans was broken, plates, cups, heads and teeth. The Japanese were rather taken by surprise, but they soon recovered their presence of mind and paid back in the same coin. The mix up kept growing and threaten to assume war proportions when somebody thought it had gone far enough and telephoned for the police.

The khaki boys were not slow in answering to the call, but as soon as the celebrators saw them coming they took to the woods or rather the lantana. The officers didn't know exactly what the fleeing Koreans had been doing but took the flight as a confession of guilt and began rounding them up. They succeeded in gathering in nineteen of the men from the Hermit Kingdom and lodged them in jail for further examination. The Koreans are indignant that they have been arrested. They claim that they slept peacefully all right. Only they slept in jail and were so dead drunk that they do not remember the events that preceded the sleep.

Judge Dole will listen to the tale on Monday.—Garden Island.

strong letter recommending the apostolic mission house in Washington, which he would send to the cardinal later.

After leaving the pope Cardinal Gibbons paid a farewell call upon Cardinal Merry del Val, the papal secretary of state, who came purposely to Rome from Castle Gondolfo for this meeting.

PROPERTY VALUATIONS ARE SMALLER

The property valuation on this island and the total of the taxes collected for the year 1907 are smaller than for the year 1906. The exact reason is hard to find but the valuations were lower and the assessments were also smaller during 1907 than in the previous year.

The following figures give the valuations of property taxed for the two years as well as the value of property which was held to be exempt from taxation:

1906 1907.

FREAK IN FIJI.
A "freak of nature," which is well worth inspection, can be seen at Corbett Brothers' Butchery, Renwick Road. It is a red-and-white calf which, while perfectly formed in every other respect (has three eyes, four nostrils and two tongues. The whole head is abnormally large. The third eye is in the centre of the forehead, and has eyelashes. It is, however, apparently blind. The mouth is very wide, and is provided with two tongues, one of which is tongue-tied. Then there are two distinct noses, the

four nostrils being apparently perfect. It would be interesting to have a vet. examine the head more closely to discover if all the other parts are duplicated or not. The calf looks very bright and healthy and drinks readily. It was born last week on the island of Toga, on the Rewa River, and is the progeny of a cow owned by an Indian. Her previous calf, by the way, was also freak. It had no tail, but came into the world provided with six legs.—Western Pacific Herald, Suva, Fiji.
